AXxess™ EXpress and AXxess™ Lite

Security Management Software Packages

Complete Access Control Software Package

AXxess™ EXpress is a software package that provides multitasking support and flexibility. AXxess EXpress's open architecture enables you to build a new security management system or to integrate with existing card readers, and alarm monitoring devices.

The flexibility of AXxess EXpress gives you the power to customize your access control system to your specific needs — without requiring advanced technical expertise. Control access to individual buildings, offices or manufacturing areas, to single doors or multiple zones. Track visitor usage or employee attendance. Activate after-hour security.

Flexible, Expandable and Reliable

AXxess EXpress features a distributed processing architecture that utilizes remote intelligent control. By localizing access decisions at the hardware level, AXxess EXpress provides the fastest possible processing times. This distributed processing scheme also provides maximum flexibility and the ability to add or delete access points without affecting overall system performance. Access decisions can be made accurately and without hesitation. Connections are made via standard data busses including your existing Ethernet backbone, RS-485, fiber or by using standard telephone dial-up .

Applications

AXxess EXpress flexibility makes it ideal for a wide variety of applications such as office buildings, small commercial and manufacturing facilities.

AXxess Express

Standard Features

- *For Windows® XP Pro*
- *Supports up to 30 doors (net series doors not included)*
- *Up to 5000 individual badge numbers*
- *Up to 100 access levels*
- *Single workstation (option to add more client licenses)*

Specifications

SYSTEM REQUIREMENTS

BASIC COMPUTER REQUIREMENTS

- Pentium 4® 3.2 GHz or higher PC
- 1 GB RAM minimum
- 40 GB minimum hard disk
- Windows® XP Pro
- One or more serial ports for direct connect panels or RAMMs
- Ethernet card
- Parallel port or USB port for report printer
- CD ROM

Note: Computer requirements could change. Please contact factory for current requirements.

DATABASE INTERFACE

- SQL Server Database
  – Runtime version included

SYSTEM OPTIONS FOR EXPRESS ONLY

- Elevator module
- Badging module
- Data Encryption module
- Multiport™ Libraries
- Additional Client Licenses

SYSTEM SPECIFICATIONS

SYSTEM COMPONENTS

- AXxess™ EXpress Software CD-ROM
- AXxess™ Interface Module
- RS-232 cable

COMMUNICATIONS

- 2-Wire, RS-485 interface
- RS-232
- Fiber w/purchase of appropriate Interface Module
- Ethernet

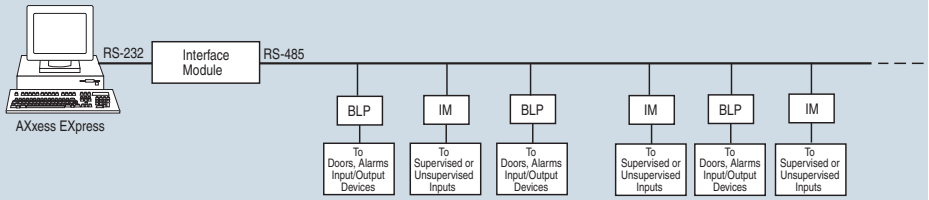

INSTALLATION

- LAN/WAN using EXpress with eRAM or RAMM
- Daisy chained RS-485 terminated with 120Ω resistors at ends

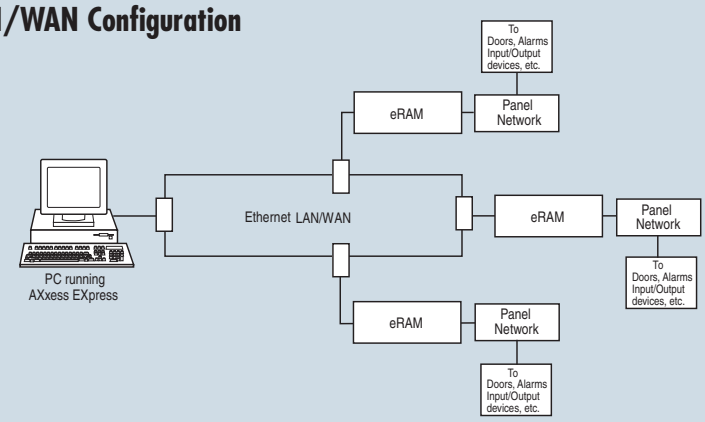

APPROVALS

UL, CSA, CE

BLP – RS-232/485 Configuration

eRAM – LAN/WAN Configuration
